

## MANDERA COUNTY GOVERNMENT

30 December 2018 at 09:36 ·

As We usher in 2019, I wish our country, Kenyans, and other residents who are with us in our beautiful country as our guests a year full of prosperity and God's protection.

Every country has its own political culture and ours is that of politics at all times. I pray to the Almighty God that our politics pulls us together as a nation.

As we face many political uncertainties including impending referendum, I pray that it happens in the true spirit of our constitution which is that of extensive consultations and public participation. I particularly ask all leaders to protect devolution and guard the gains we have secured so far.

For the first time in over 50 years after independence there is hope for real economic inclusion and real development in our country which is guaranteed by our constitution and devolved county government system. It is my hope that devolution is protected and strengthened by all.

H.E. Ali Ibrahim Roba Governor of Mandera County and chairperson Frontier Counties Development Council.
